

## Steep Slope Roofing Manufacture Requirements

- 1- Manufacture must be listed in NRCA's steep slope roofing materials guide.
- 2- Manufacture must have a successful 10-year history as a roofing product manufacture. (manufacture only not product)
- 3- Manufacture must show documented proof of how they plan to meet warranty obligations.
- 4- A pre-installation noticed will be submitted by manufacture prior to start of any work. This will include confirmation that the products being used meets or exceeds the requirements set fourth. This will also include confirmation that the scope of work is in accordance with published technical data as per manufacture. This also includes confirmation that a warranty has been requested and will be issued.
- 5- Manufacture will provide at no additional cost to owner, progress inspections as conditions require and a final warranty inspection at project completion by a full time technical representative.
- 6- Any portion of specification that does not meet manufacture requirements will be installed per manufacture requirements at no additional cost to owner. Any portion of the specification that exceeds the manufacture minimum requirements will be installed according to specifications not manufacture minimum requirements
- 7- Manufacture must have a history of meeting Warranty obligations.
- 8- Manufacture must provide products that meet the requirements set forth in basic roof design requirements.
- 9- The DFCM project manager shall attend final roof inspection. Manufacture should give no less than 72 hours notice prior to final inspection.
